

Atrea®

Leader in ventilation and heat recovery

DUPLEX SLIM

Compact ventilation units with heat recovery, whose design is adapted for installation **not only** above concealed flush systems for wall hung toilets. The units have a nominal flow rate of **150 m³/h**.

ADVANTAGES OF THE UNITS

- ▶ Very **low ambient noise**
- ▶ Very **low installation depth of 170 mm**
- ▶ Filter change without opening the door
- ▶ Wall-mounted installation position, in two design options
- ▶ Exterior connection ports with **thermal bridge suppression**
