# Atrea®

Leader in ventilation  
and heat recovery

## NEWS

# DUPLEX Easy2

We introduce the simplest solution of controlled ventilation with heat recovery for houses and apartments. Units with a nominal air flow of **200 to 500 m<sup>3</sup>/h**.

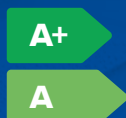

## UNITS ADVANTAGES

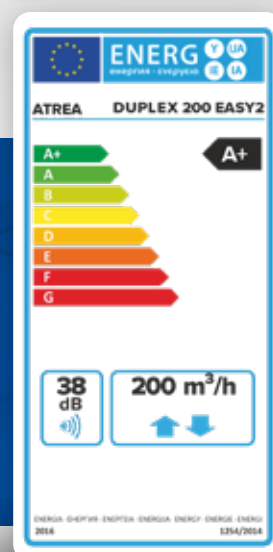

- ▶ Universal installation position under-ceiling or wall-mounted
- ▶ Very low noise level to surroundings
- ▶ With very low building height from 220 mm
- ▶ Connection ports without thermal bridges

EU Commission Regulation  
1253/2014 (Ecodesign)  
valid from 2018

Energy class of units  
according to 1253/2014 A+/A  
(for average climate zone)

Civil and industrial buildings

Systems of houses and apartments

Schools and kindergartens

Ventilation of (large) kitchens

Central ventilation system
